# CookAlong - design options

Three looks for the Fire TV app. Each page shows the Home screen and the Cooking screen.
All three keep the same layout, big type and focus rings, so cooking works the same in every one.
Pick one letter (A, B or C), or mix: for example B colours with A's rounded corners.

## A Ember

Warm amber on charcoal. The current look, polished.

## B Garden

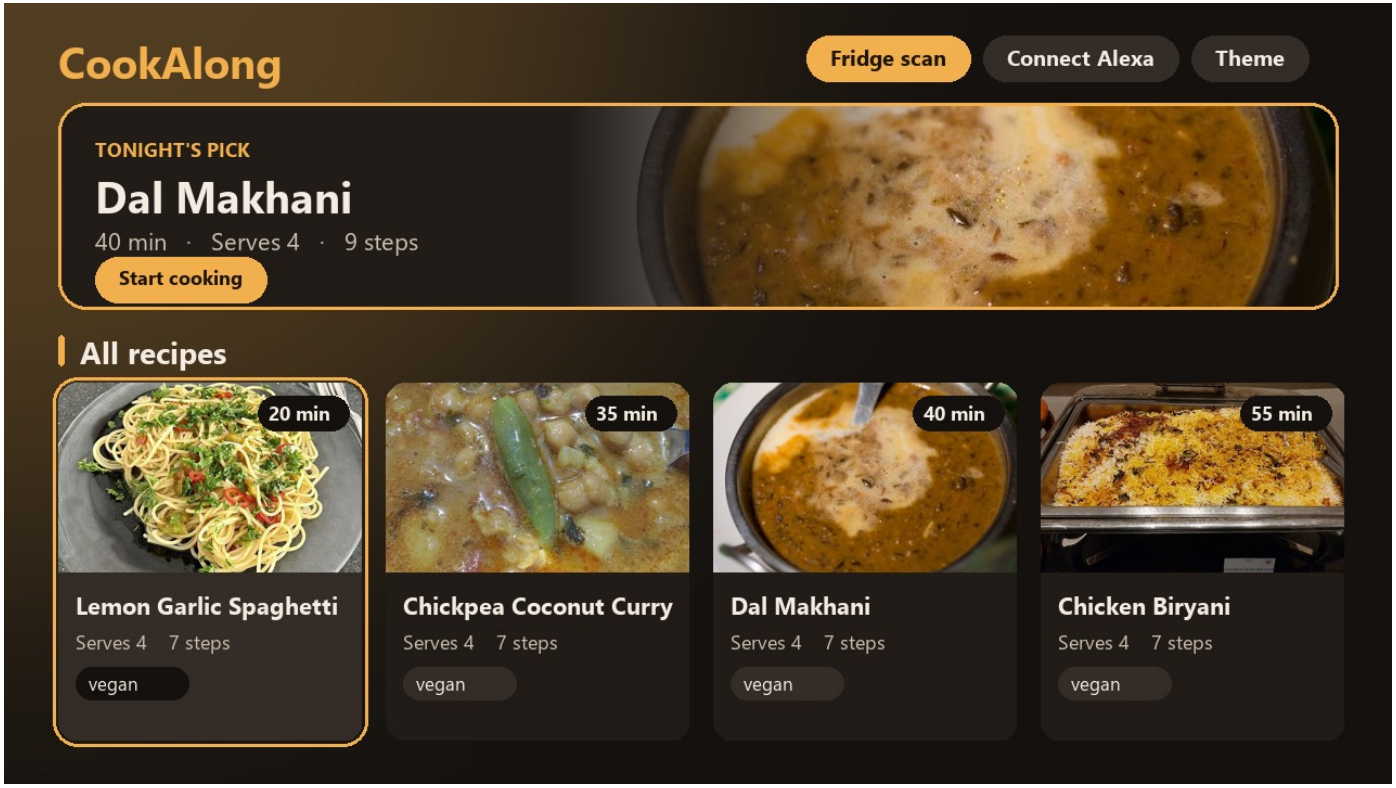

Fresh deep green with lime. Feels healthy and clean.

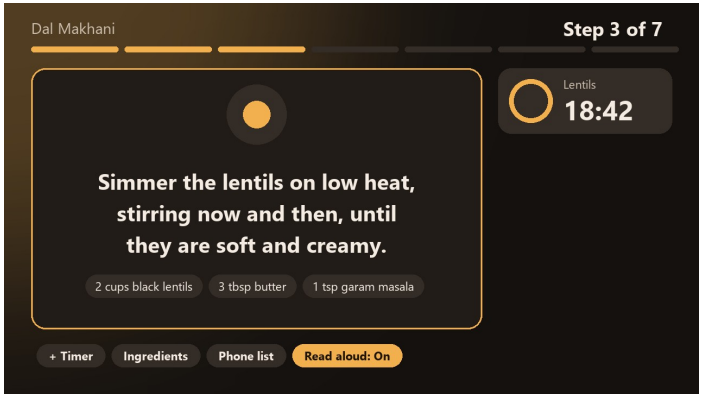

## C Cream

Light and airy with terracotta. Best in a bright room.

# Option A: Ember
